List of countries with respective number of mycorrhizologists X

Liste des pays avec le nombre respectif de mycorhizologues X

List of mycorrhizologists in alphabetical order with complete address and individual information ..... 1 to 88

Liste des mycorhizologues par ordre alphabétique avec adresse complète et renseignements personnels ..... 1 à 88

List of mycorrhizologists by field of research ..... 89 to 154

Liste des mycorhizologues par domaine de recherche ..... 89 à 154

List of mycorrhizologists by country .....155 to 166

Liste des mycorhizologues par pays ..... 155 à 166

REGISTRATION FORMS for mycorrhizologists not registered in this directory .....at the end

FORMULES D'INSCRIPTION pour les mycorhizologues non inscrits(es) dans ce répertoire ..... à la fin

FOREWORD
(4th edition)

The literature on mycorrhizae includes nearly 12,000 individual papers and dozens of books. The electronic age, in which all was to be computerized, has not helped information retrieval as much as we had hoped. Instead of happily gazing at our computer terminals, supping the wisdom of science at the push of a button, we cannot even keep up with entering titles of new releases, let alone their data and conclusions.

What, then, is the most useful work on mycorrhizae? The answer is easy for me: The INTERNATIONAL DIRECTORY OF MYCORRHIZOLOGISTS! It contains what I need for research, writing and recreational activities in the most satisfying way. When Val Furlan and J. André Fortin produced the 1st edition, I told them they were crazy to volunteer for such an intimidating task ..., but it was essential to do. When they volunteered the 2nd and 3rd editions, they reaffirmed their ability to accommodate the craziness to provive the essential.

Why wax eloquent about a listing of names and attendant data? Because communication is the single most difficult challenge scientists face in an age of communication overload. I use my telephone, FAX and stationery to much greater advantage than the computer in seeking the latest knowledge of any aspect of mycorrhizae. Others network by computer. All of us in the process make friends around the world. We hear the latest jokes from afar, learn of plans for pub assemblies in Sheffield or gemütlich beer halls in Munich, or shrimp feds on Perth beaches or sour herring parties in Uppsala, curry feasts in Bangalore and tamales in Monterrey. And, we get the scientific updates we need but cannot keep up with on our own.

Science remains a very humain endeavor. Electronics provide great tools for communication, but the tools are useless until we know how and where to contact our colleagues. The INTERNATIONAL DIRECTORY OF MYCORRHIZOLOGISTS is the most used volume in my library, the only book I absolutely must have to conduct my science. For that, I owe the crazy but dedicated producer of this 4th edition a profound vote of thanks. At next opportunity, I will buy him a bottle of champagne and see if he will slip an extra copy to me so that I can have one both at home and laboratory.

James M. Trappe

AVANT-PROPOS
(4e édition)

La littérature sur les mycorhizes comprend près de 12 000 articles scientifiques et des douzaines de livres. À l'ère des télécommunications, où tout devrait être informatisé, la recherche de renseignements n'est pas toujours à la hauteur de l'attente. Au lieu de prendre plaisir devant notre terminal à s'abreuver de la sagesse de la science à la simple touche d'un bouton, nous ne pouvons même pas maintenir à jour les titres des nouvelles parutions, encore moins les données et les conclusions.

Quel est donc le document le plus utile dans le domaine des mycorhizes? Quant à moi, la réponse est bien simple : LE RÉPERTOIRE INTERNATIONAL DES MYCORHIZOLOGUES! Il contient ce dont j'ai besoin pour la recherche, la rédaction et les activités récréatives de la manière la plus satisfaisante. Lorsque Valentin Furlan et J. André Fortin ont publié la 1re édition, je leur ai dit qu'il fallait vraiment être téméraires pour entreprendre une tâche aussi titanesque ..., mais elle était essentielle. Lorsqu'ils ont volontairement décidé de produire la 2e et la 3e édition, ils ont réaffirmé leur témérité pour offrir l'essentiel.

Pourquoi autant d'éloquence pour une liste de noms et de renseignements personnels? Eh bien, parce que la communication est le plus grand défi que les scientifiques rencontrent en cette ère d'intenses communications. J'utilise mon téléphone, mon télécopieur et la papeterie plus efficacement que mon ordinateur pour rechercher les dernières connaissances dans le domaine des mycorhizes. D'autres communiquent par ordinateur. Quoi qu'il en soit, tous les moyens sont bons pour se faire des amis dans le monde. Ceci nous permet d'entendre les dernières blagues de l'étranger, d'être informés d'une assemblée populaire à Sheffield ou d'un agréable festival de la bière à Munich, d'une dégustation de crevettes sur les plages de Perth ou d'un party au hareng à Uppsala, d'un festin au curry à Bangalore ou de mets épicés à Monterrey, tout en étant continuellement à l'affût des dernières trouvailles dans le domaine des mycorhizes et ce plus efficacement que par le travail en solitaire.

La science est le fruit d'un effort humain considérable. Les moyens électroniques constituent de merveilleux outils de communications, mais ces outils sont peu efficaces si nous ne savons pas comment et où contacter nos collègues. Le RÉPERTOIRE INTERNATIONAL DES MYCORHIZOLOGUES est la publication que je consulte le plus souvent, la source indispensable dont j'ai absolument besoin pour continuer ma recherche scientifique. Par conséquent, j'adresse au téméraire et dévoué producteur de cette 4e édition ma profonde gratitude. A la prochaine occasion, je lui paierai une bouteille de champagne et je verrai s'il me refilera une copie supplémentaire afin d'en avoir une à la maison et une au laboratoire.

James M. Trappe

PREFACE

The 8th NORTH AMERICAN CONFERENCE ON MYCORRHIZAE (NACOM) is being held at Jackson, Wyoming, USA from 5 to 8 September 1990, and we are pleased to release the 4th edition of the INTERNATIONAL DIRECTORY OF MYCORRHIZOLOGISTS on this occasion.

Compared to the previous directory, this year's edition shows a net increase of over 12% in the number of mycorrhizologists registered. This is very encouraging and we hope to reach the thousand mark in the next edition.

Our objective for the future is to distribute this directory free to all registered mycorrhizologists and at cost plus postage charges to any other wishing to receive it. We hope to reach this objective by selling advertising space. Thus you are invited to help by making valuable suggestions as soon as possible.

We express our gratitude to Dr. Sylvio J. Bourget, director of the Agriculture Canada Research Station in Sainte-Foy, Québec, for his generous contribution of administrative and technical assistance. Also, we sincerely thank Mrs. Cacilla Tremblay, Mr. Roger Lévesque, Mr. Daniel Guindon, Mr. Claude Richard, Mr. Guylain Charron and Ms. Liana Harper for their help.

We believe this directory will stimulate further interest in mycorrhizae research while creating a worldwide spirit of human-social symbiosis.

PRÉFACE

Le 8e CONGRÈS NORD-AMÉRICAIN SUR LES MYCORHIZES (NACOM) aura lieu à Jackson, Wyoming, USA, du 5 au 8 septembre 1990. A cette occasion, nous sommes heureux de vous présenter la 4e édition du RÉPERTOIRE INTERNATIONAL DES MYCORHIZOLOGUES.

Dans cette édition, nous avons une augmentation nette de plus de 12% du nombre de mycorhizologues inscrits par rapport à l'édition précédente. Ceci est très encourageant, et nous espérons dépasser le cap du millier lors de la prochaine édition.

Notre objectif futur est de distribuer gratuitement ce répertoire à tous les mycorhizologues inscrits et au prix coûtant plus les frais postaux à tous les autres intéressés. Nous comptons atteindre notre objectif par la vente d'espace publicitaire. A cet égard, et dans votre intérêt, nous vous demandons de collaborer en nous envoyant vos suggestions le plus tôt pssible.

Nous exprimons notre très vive reconnaissance à M. Sylvio J. Bourget, directeur de la Station de recherches d'Agriculture Canada à Sainte-Foy, pour le soutien administratif et technique. Nous tenons à remercier tout particulièrement les personnes qui ont collaboré à différentes étapes de la préparation de ce répertoire : Mme Cacilla Tremblay, M. Roger Lévesque, M. Daniel Guindon, M. Claude Richard, M. Guylain Charron et Mme Liana Harper.

Nous souhaitons que ce répertoire puisse contribuer à stimuler toujours plus l'intérêt de la recherche sur les mycorhizes et à répandre universellement un véritable esprit de symbiose entre tous les peuples.

Valentin Furlan
